

## **Appendix 1**

### Interview guide

AIM: The aim of the study is to explore nurses' experiences of caring for hospitalised unvaccinated patients with COVID-19.

### **Questions**

1. Describe how do you feel about caring for patients with COVID-19 who are unvaccinated?
2. Talk about a situation where you have cared for a patient who was unvaccinated.
3. What has helped you to manage your work situation during the pandemic?
4. What has caused obstacle for managing the work situation?
5. From your experiences, what would you bring with you to a future pandemic or similar situation?

### **Examples of follow-up questions:**

- Can you tell me more about...
- How do you think about ...
- How did you feel about ...
- Have you discussed with your colleagues? What did you say...
- Is there anything you would like to add
